The Austin Evening News wants the free coinsge bill passed, even over the president's veto if it comes to that, in order to "get the issue out of the way before the fall campaign." How that would get the issue out of the campaign is a mystery.

Secretary Foster is now in London negotiating with great world's financiers for a settlement of the silver question, but he will take good care to allow it to remain unsettled until after the presidential election. Republicans have an advantage in silver fight which they will be slow to re-

WHY SHOULD CLEVELAND WITHDRAW?

The Associated press reports an interview with Editor Henry Watterson in Chicago, in which he says the nommation of Mr. Cleveland would be suicidal to the Democratic party and that he has so much respect for Cleveland's good sense, dignity and honor that he takes for granted Cleveland will in due time withdraw his name, As Cleveiand has never declared himself a candidate it is not exactly clear to THE NEWS why he should be required to withdraw. Mr. Watterson cannot point to a single utterance of Mr. Cleveland that could be construed to mean that he was posing as a candidate. True his friends all over this country have kept his name before the public as the proper man to carry the Democratic banner in the coming contest, but no personal efforts of his are responsible for it except so far as his deportment as a citizen commends him as a suitable man for the position. Indeed, Mr Cleveland's indifference is probably the greatest bar to his availability and Mr. Watterson himself attributed his defeat in 1888 to that fault. Mr. Cleveland's candidacy, therefore, is not of his own motion, but it is the result of a public record that has enendeared him to the people they alone are responsible his name being one with the presidency. Under circum- tion at a less figure than they have to stances such as these it would be up pay for the home manufactured stances such as these it would be unpatriotic in Mr. Cleveland to refuse could not be prevailed upon to reduce assembled June 21 believes Mr. manufacture, as all good citizens Cleveland is the proper man to lead us should. There are several prominent Van Hall, Foster Fort, J. K. Rose, men in the west who can poll more Democratic votes in New York even than can either Hill or Cleveland. THE NEWS is watching the course of two of the latest improved "Hercules"

The effort to keep the farmers from planting another big crop of cotton will likely provo futile. In some of the older states the acreage will probably be decreased, but in all the newly settled territory in the south the acreage will be increased, perhaps in proportion. New land produces cotton better than it will any other crop and this fact taken together with the fact that cotton is planted later and gives the farmer more time to prepare his land, will serve to increase the cotton crop in this part of the South. Judge T. J. Harper, of Axtell, however, thinks that the acreage in that neighborhood will be about the same as last year, the increase of acreage being followed by an increase of grain crops on the old land. If the farmers all over the state would be governed by the present prospects they would hold the acreage of cotton down to what it was last year, at least, and in that the crop C850 all over South would be greatly reduced. THE NEWS believes that other things have conspired to reduce the price of cotton to the present prices, but if by a material reduction of the output a shortage can be produced it will, undoubtedly, create a demand that will force prices up.

having to seek a market elsewhere. The large "cold storage rooms" accommodate fresh meats, butter, poulry, eggs, fish, fruits, vegetables, while the leading brewers of the county, such as the Pabst Brewing Co., of Milwaukee, The Anheuser Busch Brewing Association of St. Louis, The New Orleans Brewing Association of New Orleans, and the Klausman Brewing Co., of St. Louis, all cool and store their beer in the spacious vaults made especially for their use.

This company gives employment to some 20 odd people in the fall and winter months and to some 45 or 50 in the summer months, and as their work is all heavy, they employ none but able bodied men who are paid a most liberal scale of wages, thus securing to the company the best class of labor to be had in the city.

The Waco Ice Refrigerating Co., is a credit to Waco, and is a permanent benefit, and should have the hearty and liberal support of the people.
